The senior partner of the firm is William F. Sheehan who was Parker's personal sponser at St. Louis and during the progress of the ex-judge's disastrous campaign.

Under the same roof that covers Parker's new office are the quarters of J. Bergeant, where the Tammany leader. Charles F. Murphy, is wont to hie himself when in aid of political counsel.

SAN FRANCISCO. Nov. 16.-Th roposed constitutional amendment ex-ending the sessions of the Legisla-ure is again in doubt. The first re-urns, based on a total of 129,000 votes, turns, based on a total of 128,000 votes, gave the proposed amendment a majority of about 1600, but the returns received up to today, totaling 200,000, wiped out this majority and left 1000 votes standing against the measure. There are yet 100,000 votes to be heard from, and in this number the fate of the measure rests. It is now the general opinion, however, that the amendment has been defeated, though a complete count may upset these calculations.

LONDON, Nov. 16.—[By Atlantic Cable.] The state banquet at Windsor Castle tonight in honor of King Charles and Queen Amelie of Portugal equaled in brilliancy previous magnificent functions at which European rulers have been the guests of Great Britain's reigning monarchs in historic St. George's Hail.

The guests numbering 164, included members of the royal family, foreign representatives at the Court of St. James, Cabinet ministers, leaders of the opposition, military and naval officials and others prominent in the highest circles of Great Britain.

The guests assembled in the white drawing-room, where they sere arranged in order of precedence by officers of state, the indies on one side and the gentlemen on the other. As the clock in the great tower struck 3, King Edward and Queen Alexandra entered together from their spartments and almost simultaneously the opposite doors rolled open for King Charles and Queen Amelie.

SIDE TALKS BY THE OFFICE BOY

TRIED on one of those fancy vests yesterday, but I'm so shrunk up it looked big enough to be a bath robe. I don't see why it takes kids so long to grow up! I'd give my month's salary to fill out a fancy brown vest, but no use. Susie would only make fun of me.

Don't the young fellows look swell in 'em, though? swell in 'em, though?
You've never seen these because they only came in the
other day. Gee, the style to 'em.
The boss said it's just what
they're wearing in New York
and no one else has 'em in Los

I think the man who wears

Serio-Comic Grand Juryman Fails to Play His Part in Trial of Ellis. Court Protects Willard from Attorney's Prickly Questions.

S HREEKS of the grand jurors, supposed to be upon the rack in the Ellis bribery case, yesterday were not ferce enough to be thrilling.

Rogers made it a little clearer.

The District Attorney appeared to support the indictmenta. Rogers asked Willard to take the witness stand; but the court quietly ordered him to stay in his seat; he was je be examined as a grand juror, and not as a witness.

Rogers asked him about the circulars he has been getting out against Werdin for the Municipal League.

Willard replied that he had performed the mechanical and purely literary work of composing them; the ideas expressed, he taid, were the ideas of the league.

work of composing them; the ideas expressed, he said, were the ideas of the league.

Rogers hinted at a controversy between the Municipal League and Werdin, but the court ruled out the questions heagked.

"Were these indictments brought against Ellis, an employé of the Street Superintendent, with any idea of discrediting Werdin's office?"

OF COURSE NOT. OF COURSE NOT.
Willard glared at the lawyer and said in a harsh voice, "No."
"Did these circulars against Werdin and the fight you are making against-him cause you to regard this case differently than others brought before you?"
"No."
"Were you governed to any extent

(Explosively) "No."

"You needn't answer that question," said the court. "I think you are going way outside, Mr. Rogers."

Rogers put that question in about forty different ways, doubtless in the hope of building an appeal on the ruing of the court. In every case the ope of building an appeal on the rung of the court. In every case the

PAT IN A FUNK.

Pat was called to the stand and came down, looking undecided whether to testify or make a break for liberty.

"Were you present at the hearing of this Ellis bribery case?" asked Rogers moothingly.

California, Miss Corcoran endeavored to find her, and wrote various letters to the Los Angeles general delivery, hoping to reach the girl in that manner. Helen, however, was living in the country, on a small ranch near Tropico, with Mr. and Mrs. Byrom, distant relatives. So the letters went back to New York, unopened, and the little protegé, not knowing that any effort on the part of a distinguished artist

sew Tork, unopened, and the little protegé, not knowing that any effort on the part of a distinguished artist was being made to find her, dreamed on alone in the strawberry lands.

The girl soon began to fook to other things than paintings of pretty landscapes, and with growing womanhood took on her mother's ambitions, and—it is said—much of her taient. Last summer she went back to the metropolis, and stayed there for a long time, seeing many plays, meeting many of her parents' acquaintances—yet without being able to gain the inner circle of theatrical New York, and also without the money to remain there and pursue her course in the school she had chosen. Miss Corcoran had not ceased to look for her.

Later, Helen Coker came back to her friends in California. She brought books, pictures and impressions with her; she left her heart upon the altar of the New York footlights. With other things, she had recovered from old acquaintances what is now her most treasured possession, a costume which her mother had worn at one time while playing "Meg Merrilies."

Early in October Miss Corcoran received Helen Coker's real address, and a letter was immediately sent which filled the earnest aspirant's heart with hope. It said that the author had heard of a little blonde girl in the West with a very pretty face and a promising ambilion to "do things" in the world. Other letters followed, and affairs were made ready for departure as fast as possible.

Yesterday Miss Corcoran was in Santa Barbara. Friends of hers in that seaside town left for the East last night, and in order that Helen Coker might have company eastward, she went up from this city the day before and started with them.

At the conclusion of Pat's testimony, Rogers submitted the motion to set aside the indictment and the demurrer also.

ggw YORK, Nov. 18.—[Exclusive tegalch.] The American bantamweight of fastherweight fighters who have on yearning to take champion Jem order's scalp, may just as well form the egistence of the boy who desided Prakis' Neil. Bowker is not sming to America, at least not being to Charley Horan, Rowker says a swell like to visit America, but his many has booked him to appear in the way of swats can hardly be imagined. There was so much of everything that one looks upon the result as sort of a Thanksgiving joka. As a matter of fact it was one, and the joke was on Pretzel and Graham. It was on Pretzel and Graham. It was used a monstrous affair that anyone that never had a batting average levishman to visit here, but the trip to for a swall. In view of the champion's latest letter, it was McGuigan's intention to the Bowker against Tommy Murty, the Harlem boy, who defeated about two months ago, and Murty and the comments of the champion's latest letter, it was months ago, and Murty and the comments of th

Corgotten this season and the aspiring Commuters received a hard joit. The game served the one good purpose of showing the delicacy of the percentage table, for while Los Angeles was first on Monday and third on Toesday, she is now in first place again by the defeat of Tacoma and Oakland.

Oscar Graham went in to pitch for Lohman and the 2000 anxious fans didn't have to wait long to see what would happen, for after the Looloos took a good long look at Graham they fell all over him in bunches and banged out hits so hard that the ninety-seventh bombardment of Port Arthur couldn't have caused as much excitement even among the constant readers of our valuable paper.

After Bernard was an infield out.

bombardment of Port Arthur coulan't have caused as much excitement even among the constant readers of our valuable paper.

After Bernard was an infield out, Flood smacked the bail to right and then Smith flied to center. Chance hit to left, Cravsth doubled to right and Chase banged a sizser to center. On the throw-in Chase ran to second, stole third and when the bail was sent to Wild Bill Devereaux at third to catch Chase, the boy kept on to the plate. This made four runs and even after these. Graham passed both Brashear and Toman.

This was too much for Maw Lohman and she immediately took out Graham, threw him under the bench and put in Pretzel Schmidt for the second inning. Pretzel really was good for that second inning, but in the third the local came to the conclusion that he was only Graham after all, and commenced to smack him around again, Smith and Chance hitting him for successive doubles and both scoring on Bruger's wild throw to Devereaux. In the fourth inning Toman was passed, Bernard and Flood singled, Chance hit a triple and Cravath a single and these netted four more runs. Then two singles, a double and a sacrifice in the sixth made two more and the final came on Brashear's error of Bernard's grounder. Sixteen hits will win any game and there never was an easier one than that one yesterday.

This will be another ladies' day at the ball game. Newton or Mason will pitch for Los Angeles and Moskiman or Buchanan for Oakland. Each team needs all the games it can get just now and both Oakland and Los Angeles are anxious for a chance at that not see. and both Oakland and Los Angeles are anxious for a chance at that post-sea-son gate money with Tacoma. The in-terest in the struggle here this week is certainly very marked. At Moriey's bil-liard rooms, for instance, one man is busily engaged every evening for three hours in answering the 'phones.

TEAM GOT TWISTED.

[BY THE ASSOCIATED PRESS-P.M.] FRESNO, Nov. 18.—Tacoma was everything but herself today. Almost every man held down another man's every man held down another man's job. This resulted from an lajury to Catcher Hogan's hand in the fourth inning. Hogan went out and Casey was shoved behind the bat. Casey could not hold Overall, and Ovic went to center field, and Lynch traveled to the pitcher's place. Thomas was sent to right field, and Doyle ca-ae in to second base. Seattle's heavy hitters smashed Lynch. Their hits, coupled with errors by the twisted team, got Seattle five runs. Hall pitche's gilt-edged bail, allowing only four hits. A feature of the game was a sensational catch of a fly by Van Haltren. He threw out his mit after a fast run and nipped what looked like a beautifut hit. Score:

In direct opposition to Mr. Bryan's view we have an opinion from the New York World as to what caused the land to slide the way it, did. This is what the great Democratic journal says on the subject:

The party yielded to the radicals in 1896 and was overthrown. It yielded to them again in 1906 and was again defeated. If the Democratic party is to win it must be thoroughly and completely Democratic—as it was in Jefferson's day, in Jackson's day, in Tildens any, in Cleveland's day. The results of Tuesday show that it cannot win if it is half Democratic and half Populist. It cannot survive at all it in its leadership it is to be half Populist and half Socialist."

The church officials declare in the most positive manner that although they agitated against compulsory vaccination, they did not encourage saty uprising.

Both houses of Congress today adopted resolutions declaring that a state of siege will exist at Rio Janeiro and its neighborhood for thirty days. President Alves, in a message to Congress, said he can and will restore order and is only embarrassed by parliamentary privileges which prevent him from arresting the deputies and Senators who direct the disturbances. The Gamboa and Gaven districts were very disturbed this afternoon.

TO USE ELECTRICITY INSTEAD OF STEAM

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Nov. 16.—[Exclusive Dispetch.] Reports that the Delaware, Lackswanna and Western road would shortly suostitute electricity for steam motive power on its suburban lines were confirmed last night by President Truesdale.

The subject of making such a change has been discussed for several months by officials of the company and a study was made of electricity as a motive power on the railroad. Various electricity as a motive power on the railroad. The accident happened at Alhambra avenue and the city limits, near the Pasadena short line which Praed himself was driving the machine which he owned. With him were Miss Rudolph of the "San Toy" company now playing at the Mason Operahouse, and C. 8. Fry, a chauffeur whose home is in Riverside. Both were seriously injured. Miss Rudolph's condition is considered. Fraed was about 28 years of age, and was unmarried. He was acting as a special agent of the California Citrus Praed was driving his machine, returning from Pasadena, when he apparently lost the road and drove the beavy touring car over a ten-foot embankment. The other occupants of the car were so badly injured that neither of them could go for help. It remained for the cew of a construction car on the Riverside Cappanality, most of whom reside in England. It was through his uncle's interests in the Riverside Electric Railway, bound for Pasadena, to rescue the unfortunates.

In passing the spot, members of the car was no stour through the orea was an officer, that he secured those positions.

The fatal trip in the automobile began late last night after the conclusion of the "performance at the Mason Operahouse. Where the party went is not known for the reason that the two injured persons have been unable to speak. At 2:30 o'clock this morning.

WEAKNESS FOR WATCHES.
Otis W. Metz, a member of the Soldiers' Home, seems to have a penchant for taking, wearing and trading off pocket timepieces that belong to other people. At least that is the purport of the Peace Jenness today by a fellow civil war veteran, J. R. Patterson by name. Constable Jackson arrested Metz, who entered a plea of not guilty when arraigned this evening. His trial was set for Friday afternoon.
When Metz was arrested be had in his possession three watches n. I owners of the Home for all of them. A fourth timepiece was later discovered in Metz's bureau. The accused is a new member of the Home and when it became known that several watches were missing attention was directed to him by his suspicious actions and a consuming desire to trade watches with fellow soldiers. He and Patterson were near neighbors in a dormitory.
